#### Market Value:

This refers to the reasonable cost to buy another car of the same make, model, age and general condition similar to your vehicle at the time of loss. The market value of your vehicle will be determined based on the option you choose when you buy the policy. If you choose a Market Valuation System approved by Persatuan Insurans AM Malaysia (PIAM), the value will be based on that system. If not, the value will be determined by the car franchise-holder's head office. If this value is unavailable, an adjuster agreed upon by both you and the insurer will determine the value.

#### Agreed Value:

Agreed value is a sum that has been fixed after discussion and agreement between you and your insurer when you purchase or renew a policy. It provides certainty about the compensation you will receive from your insurer, less any excess (if applicable), if your car is stolen or totally destroyed. The market value of your vehicle at the time of loss will not be taken into consideration in such an event

#### Under-insurance:

If you insure your vehicle at a lower sum than its market value, you will be deemed as self-insured for the difference, i.e. in the event of loss/damage, you will only be partially compensated (up to the proportion of insurance) by your insurance company.

#### Over-insurance:

Should you insure your vehicle at a higher sum than its market value, the maximum compensation you will receive is the market value of the vehicle as the policy owner cannot 'profit' from a motor insurance claim.

#### Policy Cancellation:

You may cancel your Policy by giving us a written notice. Upon cancellation, we will refund premium according to the \*Customary Short-Period Rates subject to a minimum premium of RM50.00 payable under the Policy. However, premium will not be refunded if a claim has been made on the Policy.
